

VIVANT™

DA5OX

Package Includes

DA5OX

USB Cable

Spare
Coil Head

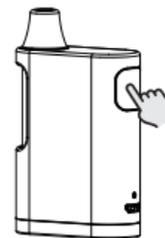

Scoop
Tool

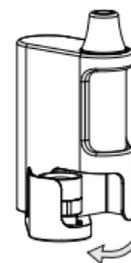

Silicone Cover
(to avoid splatter)

Getting Started

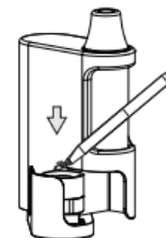

1. To power on the device, press the fire button 5 times consecutively. To vape, simply hold the fire button and inhale through the mouthpiece.

(To power off the device, press the fire button 5 times consecutively).

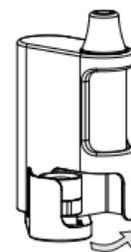

2. Twist the base open to the first position (45 degrees).

Getting Started

3. Use the provided scoop tool to load the material into the coil head. Tap the fire button to melt the material if necessary.

(We only recommend 0.1g - 0.2g of material per session to ensure the best vaping experience).

4. Twist the base back to the closed position. DA5OX is ready for use!

Power Indicator

The light on the device changes color during use to indicate the remaining battery life as follows:

80% —100%
Power

Green - the device has 80%-100% battery life.

20% —79%
Power

Blue - the device has 20%-79% battery life.

0% —19%
Power

Red - the device has 0%-19% battery life.

Charging

Connect the device to a wall adapter via the provided USB cable. We recommend a 2 amps charging adapter.

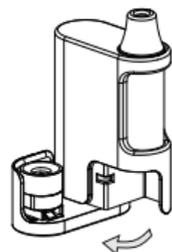

The device is fully charged when the red light is off.

Note:

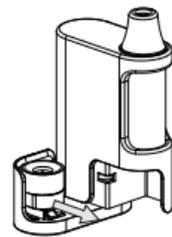

Please disconnect the device from the charger once charging is complete.

Coil Replacement

1. Twist open the base to the second position (90 degrees) to access the coil.

WARNING:
ENSURE THAT THE DEVICE IS OFF AND THE COIL HEAD HAS COOLED BEFORE REPLACEMENT OR ADJUSTMENT! MAY CAUSE BURNS OR SERIOUS INJURY IF HANDLED WHILE HOT!

2. Grip the coil head on the sides and pull it straight out to remove the coil assembly from the base.

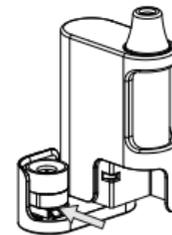

Coil Replacement

3. Twist the coil head counter clockwise to remove the coil from the adapter.

4. Replace the coil head by twisting your new coil head clockwise onto the adapter.

5. Slide the coil assembly along the tracks back into the base.

Warranty

Authentic Vivant product replacement

This warranty provides free replacement if authentic VIVANT product cannot work due to manufacturer defects, in the precondition of non-artificial damage. Warranty period is 2 years from date of purchase by the end user with proof of receipt.

Void of warranty

This warranty will be void as a result of any of the following conditions:

Customer is unable to provide original receipt of purchase.

Product failure or damage caused due to improper use or unauthorized repair and alteration.

Product failure or damage caused due to use of excessive force or negligence such as dropping the device.

Product failure or damage caused due to usage with non-VIVANT components such as power cables.

Non-Vivant brand products

This warranty does not cover any non-VIVANT brand products.

This warranty is only valid for authentic VIVANT products within 2 years after date of purchase by the end user.
